Top 5 Saree Styling Mistakes

✗ Choosing the Wrong Blouse

A blouse that doesn't complement the saree in colour, fit, or proportion can completely change the look.

✗ Over-accessorising

Statement necklace, oversized earrings, stacked bangles, bold belt... all at once is too much. Pick one hero piece.

✗ Wearing the Wrong Footwear

Sport shoes, chunky heels, or flashy sandals distract from the elegance. Choose minimal flats, block heels, or classic sandals.

✗ Using the Wrong Underskirt Colour

A bright or contrasting underskirt can show through and ruin the clean ivory drape. Stick to cream, ivory, or off-white.

✗ Carrying an Oversized Handbag

A large everyday tote can overpower the outfit. A clutch, potli, or structured mini bag keeps the look polished.

Final Tip: A Kerala saree is all about effortless elegance. When in doubt, keep it simple.

Wear it more than you think.
